REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

The closest prior art of record fails to teach or suggest the recited synthetic resin container or wall of a synthetic resin container. All of the independent claims identify the uniquely distinct features of a container or container wall that include "a thick portion formed on an inner surface of the body which is adjacent to and under the edges of the label". The closest prior art of record, Alexander (USPN 1,554,191) and Giblin et al. (USPN 6,223,945), disclose conventional containers with labels and rib structures, which either singularly or in combination, fail to anticipate or render obvious the above limitations.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
